Dear 

Here is your registration for Trade Wars 2002. The first code listed below is for all version before 1.00 and the second is for version 1.00 and above. Please enter the codes exactly as shown here into the General Editor Screen One, Option <Z>.

We have had users lose or misplace their letters with the codes and then have a system crash or other catastrophe. **Please keep this letter in a safe place.** If you need to have your code sent to you again there may be a delay. The fewer replacements we have to send out, the less we have to charge for future products and upgrades.

The code for version up to and including 0.98 is: 

The code for versions 1.00 and up is: 

We hope you enjoy the game. If we can be of any assistance, please send us a letter at the above address or E-mail user #1 or #2 at WWIVnet @9354. If you encounter any problems with the game, please include a detailed description of the problem, your hardware configuration and a listing of your BBS and TRADEWAR subdirectories.

This version of the game is a single-line game. Version 2.00 will be multi-node and it will be out at a date to be announced later. The latest version available for download is version 1.03 and is available at the Support BBS listed above. Your registration codes will enable the features on all current and future versions of Trade Wars 2002. Thank you for your support and be sure to look for new games from Martech in the near future.

Sincerely,
Gary and MaryAnn Martin
